## PAVING THE WAY TO THE DECARBONISATION OF EUROPEAN ENERGY-INTENSIVE INDUSTRIES

Development of an innovation pipeline to facilitate and promote funding proposals for deployment of low carbon technologies

Development of an innovation pipeline to facilitate and promote funding proposals for deployment of low carbon technologies (Grant Agreement No. 101137732). Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or CINEA. Neither the European Union nor the granting authority can be held responsible for them.

**2DPLOY**

**2DPLOY aims to support the European energy-intensive industries in increasing the deployment of carbon-neutral technologies and processes.**

**The project will create an innovation pipeline of disruptive and mature innovations developed by Horizon 2020 and Horizon Europe projects to the Innovation Fund by offering capacity building and tailored guidance to innovation owners in preparing viable IF applications.**

**Thus, 2DPLOY paves the way for the decarbonisation of energy-intensive industries.**

**If you have a promising low-carbon technological innovation you would like to see moving forward to deployment, contact the project team.**
